

## **Coney Farm Weekend**

It is hoped that the weekend will be both enjoyable and entertaining to all who attend. It is entirely voluntary and nobody is expected to do anything with their Syncro they are unsure about.

Club 80-90 Synchronauts is affiliated to the Motor Sports Association (MSA). This enables us to obtain the required insurances to hold events.

The safety of drivers and spectators is paramount to the success of the event; and to help us in achieving this the MSA have rules and procedures which must be adhered to at all times.

Any motor sport or off-road activity can be hazardous. Many of those attending will not have been to an event like this before or even driven off-road so it is very important that people who are intending to attend as a driver or spectator read and understand the rules of the event.

These rules will be given to everybody in advance of the event.

Apart from this the event is intended to be relaxed and enjoyable. We look forward to seeing you there.

# Coney Farm: Site Rules & Procedures

*Safety notes:*

**All motor sport can be dangerous.**

If you are requested to move to a different location by a marshal at any time during the event please do so immediately. This applies to both spectators and drivers.

**The campsite site speed limit is 5mph. On all other areas of the site the speed limit is 15mph.**

Course driving curfew is in operation from 18:30-9:30 hours. Campsite driving should be kept to a minimum. **Always be very careful when reversing.**

**Drivers:** Please read the 'Rough Guide to driving off road in the Syncro' (<http://www.club80-90syncro.co.uk/Downloads/Driving the Syncro off road.pdf>) before the event. Copies of this document will be available at the event, too.

- Ensure all loose items in your vehicle are secured when driving off road;
- Please be aware of spectators and other vehicles around you at all times when driving. Take no unnecessary risks when driving on the site, if in doubt ask a marshal;
- Keep arms inside the vehicle at all times. DO NOT reach out of the window should your van roll ! (This sounds really dumb, I know, but it has happened and peoples arms have been broken !)

**Spectators:** Please keep clear of the course when watching and try to spectate from positions **uphill** of the vehicles at all times. In the unlikely event that a vehicle should roll it should roll away from you. Please respond to any requests from site marshals immediately. Their requests are to protect your safety.

**Dogs:** must be kept on a lead at all times.

**Course Marshals:** Marshals can be identified by their fluorescent jackets. Some of them are equipped with two way radios. If you have any queries about any routes, procedures or an aspect of the event, please consult one of the marshals. They will also know who the site first aider is and direct you to them should first aid be required.

**Clerk of the Course:** The Clerk operates as the chief marshal. Any issues or disputes during the event will be settled by the Clerk and his decision is final.

**Course markings:** If a course is marked out with orange arrows on stakes, please stick to the course and if you knock over any arrows please put them back up. If you cannot replace the arrow please ask a marshal for assistance.

**Route choice:** Where there is a choice of routes (normally easy/hard) the hard route will be marked with a black H on the orange arrow. If the arrows are unmarked there should be no difference in difficulty of the routes.

**Course priority:** Please give way to vehicles moving uphill on the course. This is pertinent when travelling to the upper area of the site, where there is only one route. Please cede to any marshal's vehicle.

**Recovery:** Should your vehicle become immobile DO NOT continue trying to drive the vehicle to get it out, as this will probably make the hole deeper and your vehicle more difficult to recover. Do not recover other drivers' vehicles, please call a marshal for assistance and safe recovery.

**Walkers:** There are no rights of way on the site, but walkers are still entitled to walk on the site (right to roam). Please be courteous to them and slow to walking pace should you encounter any stray walkers.

Most importantly have fun and enjoy the weekend !
